What It Is

Hosted by veteran radio personality Gary Teel, Friday Night New Wave is a fast-paced, listener-powered show celebrating the era of eyeliner, synthesizers, and suburban rebellion. Each three-hour episode is built around real-time listener requests, rare deep cuts, and themed segments that give a wink to the era's weirdness.

Segments Include

- * New Wave News - What your favorite 80s artists are doing now
- * This Week in History - Anniversaries and oddities from the glory days
- * New Wave Road Trip - A three-song detour to one city's new wave legacy
- * Request Line Roulette - A random pick with a wild backstory
- * The Chatbox - Live interaction with listeners around the world

Why It Works

- * Live broadcast only - creates a must-hear-now appointment for listeners
- * Built-in audience engagement through real-time requests and shoutouts
- * Blends hits and rarities to please both casual and hardcore fans
- * Ideal for Friday night programming on classic hits or alternative stations
